

## Spring is in full swing!

I know you are enjoying the beauty of this season of rebirth, as the energy in the office is palpably heightened.

Garden designs, golf games, and travel plans are keeping many of your calendar days very full, not to mention the play-off series, which is keeping your nights busy.....so, I will try to be concise....

The American Society of Laser Medicine and Surgery LASER2013 Annual Conference was a resounding success.

KJD-MD continues to be at the forefront in the field of aesthetic medicine and surgery.

This translates into the most advanced techniques and technologies being provided.

Here are just a few examples:

 The new ICON laser system is still shining brightly, outperforming all expectations.

Those fortunate enough to use it marvel at its breadth, efficiency,

Those fortunate enough to use it marvel at its breadth, efficiency, effectiveness, and sheer creative potential.

Stretch marks, scars, redness and rosacea, and aging skin respond beautifully, reproducibly, and consistently better than predicted.

2) The two newly-launched Zeltiq Coolsculpting hand pieces, which were specifically designed to follow the natural curvature of the body, as well as

allow a better fit for tricky areas of fat removal, have been a huge hit with our well-heeled patients.

Thighs, both inner and outer, are a particularly popular area for treatment this spring, as well as upper arms.

The new 'wingless' hand piece makes the application to these stubborn fat deposits so much easier, allowing for about a 35% decrease in fat thickness. I continue to be charmed by my newest Zeltiq sculpting tools.

3) Thermage CPT is still the absolute gold standard for skin tightening, the device and technique to which all others are compared.

Faces, necks, tummies and arms/thighs all respond predictably in the appropriately selected patient, as Thermage CPT remains a pillar of a solid anti-aging plan.

Early jowls and sagging around the mouth and chin are great targets for this treatment regimen.

The National Women'sShow was a resounding success.

The word is now officially out about Zeltiq Coolsculpting, and the public is better informed about all manner of KJD-MD treatment options.

Repeat performances for next Autumn and Spring have been requested, so we have agreed to keep up the positive momentum.

It is not only incredibly enjoyable to meet the public, but it is also very rewarding to educate at the same time.

Guest speaking engagements have spring-boarded from the exposure, so the 2013/2014 calendar is becoming increasingly full.

"The Essence of Inner and Outer Beauty: the art and science of living an enriched life", is a keynote speech planned for a group of about 150 women,

enriched life", is a keynote speech planned for a group of about 150 women, and one of my favourites on the roster. It should prove quite enlightening, both for speaker and audience!

Vivier has a few seasonal specials of CE Peptides ( the supreme anti-aging serum) / TMR (a wrinkle relaxant), and a spring rehydrating mask/moisturizing combo-pack.

I'm loving them personally, and hope you can enjoy the high-end products, and significant savings as well.

As always, we are at your service....please just call Judy and she will be more than happy to assist you.

I know I promised to be short-winded....I tried!

I will save the rest for the next missive.

Happy travels, enjoy your pastimes, love your friends and families, and most importantly, cherish yourselves....

Cheers for now, KJD-MD
